### PROFILE

Computer Science undergraduate from RHUL and now former Vice President of the Computing Society there, with a degree specialised in Software Engineering looking for a full-time developer position. Previous work includes a research project done while studying at the university and an internship at a PC and network maintenance and setup firm.

### EDUCATION

2016-2019 **BSc Computer Science (Software Engineering)**  
**Royal Holloway University of London**  
During my undergraduate degree at Royal Holloway I studied widely used software development tools and techniques. I developed by myself or as part of a team multiple projects including a sabbatical application web app and a dissertation project which implements VR in an OpenGL environment.

2011-2016 **3rd degree professional qualification**  
**NPGPTO "M.V. Lomonosov"**  
My high school degree, taken in Bulgaria. As part of a specialised "Computer technique and technologies" course I studied to an extent every field involving computing and computer hardware and gained a Cisco CCNA certification in routing and switching.

### EXPERIENCE

2019-2019 **UROP Research Project**  
**ISG, Royal Holloway University of London**  
The goal of the project was the to create models of user-friendly visualisations of a given companies usage of their private data. During this work I improved both my front-end and back-end web development skills.

2019-2019 **Internship** **Mitiel Ltd**  
My work at this computer and network setup and maintenance/administration firm involved performing system repairs, server setup, giving consultations to customers and other similar duties.

### VOLUNTEER WORK

2019-2019 **Vice President** **Computing Society, RHUL**  
As Vice President of the second largest society on campus I managed the internal affairs and helped manage the external affairs of the society. I represented us during open days, started weekly drop-in sessions to help struggling students and helped create, organise and run large scale events such as the official MLH hackathon Hackaway.

### PROGRAMMING LANGUAGES

|            |              |
|------------|--------------|
| Java       | Proficient   |
| Python     | Proficient   |
| C++        | Experienced  |
| C          | Intermediate |
| JavaScript | Intermediate |

### TECHNICAL SKILLS

Agile Development  
TTD  
Git & SVN  
OpenGL  
VR Development  
LaTeX Documentation  
Hardware Maintenance & Diagnostics  
Network Setup & Administration

### INTERPERSONAL SKILLS

Teamwork  
Public Speaking  
Presenting  
Team Management  
Project Management

### LANGUAGES

|           |           |
|-----------|-----------|
| English   | Bilingual |
| Bulgarian | Native    |
| German    | Novice    |
